

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Currently Amended) A voice call originating method in a radio terminal comprising:

~~a step of~~ receiving a message;

~~a step of~~ identifying a telephone number included in the message; and

~~a step of~~ designating directly the identified telephone number ~~and performing a~~
~~call origination on a display of the radio terminal in an editable form so as to allow a user to edit~~
~~the telephone number prior to calling the telephone number.~~

2. (Currently Amended) The method of claim 1, wherein ~~the step of performing the~~
~~call origination~~ designating directly comprises:

~~a step of~~ designating the telephone number included in the message by operating a
browsing key on the radio terminal; and

~~a step of originating the voice call to~~ calling the designated telephone number.

3. (Original) The method of claim 2, wherein the browsing key is a navigator key which is able to move a cursor displayed on the radio terminal to upward, downward, left and right directions.

Serial No. 10/071,092
Amdt. Dated November 22, 2004
Reply to Office Action of August 25, 2004

Docket No. P-0337

4. (Cancelled)

5. (Currently Amended) A voice call originating method in a radio terminal comprising:

~~a step of~~ receiving a message through the radio terminal;

~~a step of~~ identifying a telephone number included in the transmitted message;

~~a step of~~ designating the identified telephone number using a browsing key on the radio terminal on a display of the radio terminal in an editable form so as to allow a user to edit the telephone number prior to calling the telephone number;

~~a step of~~ deciding whether or not to edit the ~~designated~~ displayed telephone number ~~should be edited~~; and

~~a step of~~ performing a voice call origination to the designated telephone number.

6. (Currently Amended) The method of claim 5, wherein the designated telephone number is ~~corrected~~ edited by using a key pad of the radio terminal ~~in case that the telephone number needs to be edited.~~

7. (Cancelled)

8. (Currently Amended) The method of claim 5, wherein ~~the voice call transmission~~
origination step is performed by ~~pushing the~~ activating a send key on the radio terminal.

9. (New) A method of operating a mobile terminal, comprising:
receiving a short message service (SMS) from another terminal;
displaying a telephone number included in the SMS on a display of the mobile
terminal; and
allowing a user an option of editing the displayed telephone number before
activating a send key to call the telephone number or directly calling the telephone number
without editing by activating the send key.

10. (New) The method of claim 9, further comprising:
using a browsing key on the mobile terminal to browse through text of the SMS
and highlight the telephone number included in the SMS.

11. (New) The method of claim 10, further comprising:
activating the send key while the telephone number is highlighted to display the
telephone number in an editable form so as to allow the user to edit the telephone number.

Serial No. 10/071,092

Docket No. P-0337

Amdt. Dated November 22, 2004

Reply to Office Action of August 25, 2004

12. (New) The method of claim 11, further comprising:
editing the telephone number and then activating the send key to call the
telephone number.

13. (New) The method of claim 11, further comprising:
activating the send key while the telephone number 13 displayed in the editable
form to directly call the telephone number without editing.
